This form is restricted to students enrolled in the College of Fine and Applied Arts. Students wishing to purchase a personal computer may be allowed a one-time increase to their Cost of Attendance budget to allow for the purchase. **This budget increase may result in additional eligibility for loan funds only.** Annual and aggregate loan limits restrict eligibility for Federal Direct Subsidized and Unsubsidized Loans. If you have borrowed your loan maximum for the academic year, you may consider borrowing through the Federal Direct Parent PLUS or Graduate PLUS Loan programs or private alternative loans to fund the budget increase. Federal Direct Subsidized and Unsubsidized Loans are restricted to no more than one half of the total loan amount per semester. Federal Direct Parent PLUS, Federal Direct Graduate PLUS, and private loans can disburse more than half in one semester.

Students will be allowed only one budget increase for the purchase of a computer per degree at the University of Illinois at Urbana-Champaign. The maximum amount that your budget will be increased for the purchase of a computer is the purchase price of the computer or the amount of the computer you select from the systems recommended by the School of Art and Design, whichever is less. This may include reasonable software and peripherals.

Please indicate which semester you require a budget increase from the list below. The time frame for processing this budget increase request is listed next to each semester. Return this form and your receipt or price quote (if required) to our office no later than the final date designated per semester.
