Students may be allowed an increase to their Cost of Attendance budget to allow for the one-time direct costs of obtaining a first professional license or certificate for students who are enrolled in a program that requires such professional licensure or certification. This budget increase may result in additional eligibility for loan funds. Annual and aggregate loan limits restrict eligibility for Federal Direct Unsubsidized Loans. If you have borrowed your loan maximum for the academic year, you may consider borrowing through the Graduate PLUS Loan program, or private alternative loans to fund the budget increase.

Examples of allowable costs include fees charged to take a licensing exam and the cost of applying for and obtaining the license or certification. Federal Regulations only allow the university to cover the cost of one exam, so if you are taking multiple exams, you will need to decide for which exam you would like to request a budget increase. Additionally, fees for late registration cannot be included in the request.

Please note, federal regulations only allow the university to increase your cost of attendance for the registration and administration of the exam, NOT any exam preparation classes.

Please indicate for which semester you request a budget increase from the list below. The cost must be incurred during (not after) a period of enrollment, even if the exam is after the end of the period. The time frame for processing the budget request is listed next to each semester. Return this form along with documentation of the cost of the exam to our office no later than the final date designated for each semester.
